

How To: Buy A Product

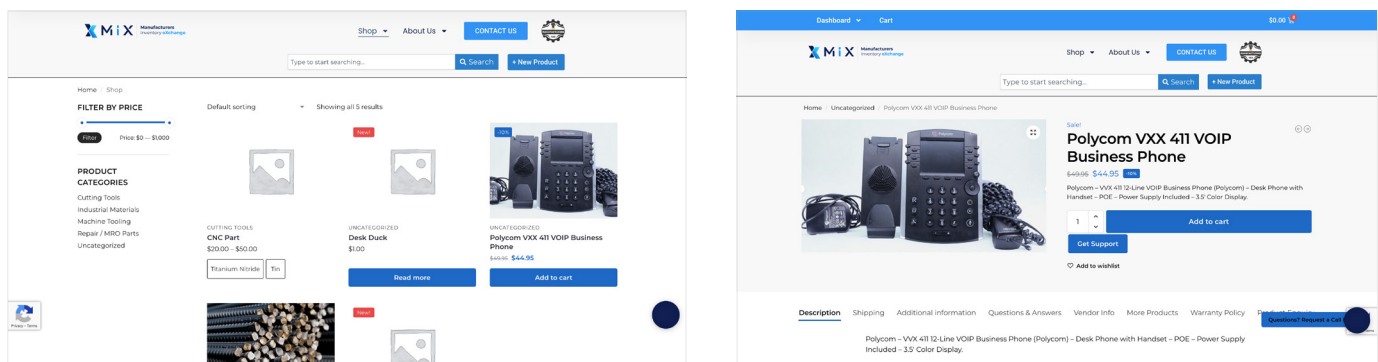

Shopping on MiX is quick and hassle-free. Explore our marketplace, find the products you need, and place your order with just a few clicks.

To Get to Our Shop Page: At the top of the webpage, please click or hover over the text that says “Shop. Clicking on “Shop” will take you directly to the main shop page, while hovering will show you our various categories to help narrow down your product search.

Step 1: Add The Desired Product To Cart

To start, find the product you'd like to purchase. You can either click **Add to Cart** directly from the search results or click on the product to view more details. We recommend checking the product listing before buying to confirm it's the right item for your needs; listings include helpful information like the description, size, warranty, and other key details. Once you're ready, **click Add to Cart**, and you'll see a red circle appear on the cart icon in the top-right corner, along with the item's price displayed next to it.

For the purposes of this guide, we'll be adding a test product to the cart. This product is not actually for sale on the site and is just for demonstration.

Step 2: Purchase The Product

Your billing information should automatically fill in from your profile, but you can easily update it if anything has changed. If your shipping address is different from your billing address, there's an option to specify that too. You can also add any special notes or instructions for your order before you complete the purchase.

On the right side of the screen, you'll see your order details, including the product, price, and shipping costs if applicable. Below that, there's a box where you can choose whether you'd like your order delivered or opt for local pickup. For both options, you can select a preferred date and time slot. If you choose local pickup, the location for pickup will be displayed; if the business has multiple locations, be sure to confirm which one you'll be visiting.

Finally, add or confirm your card information, agree to the Terms and Conditions, and click Place Order. You should then receive a confirmation email verifying your purchase.

Congratulations! You have successfully purchased your first product on MiX.
